Picture perfect for your photoshoot...

One of the first ports of call before going live is to get your photoshoot booked in. Our media team can often work more efficiently if your property is unattended on your shooting day, so please leave it with us!

As well as taking still photography, our team will also be capturing video content, and taking 360 photographs (for your virtual tour) on this day. In order to get the best results, we will need the interior and the exterior of the house to be completely guest-ready.

NB - for continuity purposes all rooms must be ready so that nothing needs to be moved from one area to another whilst we shoot.

We will bring props such as flowers, cakes, magazines etc with us to style the shoot, but may also use your dinnerware, vases etc to aid in the set up of the room styling.

We will send you a photo brief prior to the shoot, however at a glance we will ask you to please:

- Hide/remove all special & personal items (photos etc) that won't be left out when renting.
- Ensure that home has had a thorough clean & tidy; with vacuumed carpets, shiny sinks & everything in its correct place.
- Make up beds to look their best, with fluffy towels (please iron any creases in preparation).
- Only leave out toiletries that you intend to leave when guests stay.
- Tidy up the approach & entryway, leaves swept up/pot plants looking good.
- Check all windows are clean (even tiny smears show up in photos so this can make all the difference).
- If garden/outdoor areas are included in the shoot, please mow lawns, tidy flower beds, and make sure the garden is at its best.
- Allow for cars to be moved on the shoot day so that they are not in shot.
- Weather can sometimes be temperamental and we may look to postpone your original date to get the best shots or come back for exterior / garden ones if we feel it's necessary.
