Spick and span...

We will pop by your property once a year to use our NFE eyes to check for any potential issues, but we do ask that you (and/or your PM) regularly check your houses for maintenance issues to be able to proactively deal with things.

As the main stay season is April to October we suggest booking in time to have a thorough walk around in November to get all the little things sorted before mid-March, eg:

- Carpets / rugs cleaned
- Big garden tidy & maintenance projects
- Curtains / blinds cleaned properly
- Review of all linen and towels
